

**WATER USE SURVEY
CROSS CONNECTION CONTROL**

July 14, 2021

Town & Country Service Co., Inc. has developed a cross-connection control program (CCCP) to help eliminate potential cross-connections from the potable water supply. A cross-connection is the point at which a contaminated substance comes in contact with a drinking water system. This survey is a requirement of the Louisiana State Plumbing Code. We are conducting this survey of all of our water customers to protect the water supply for all citizens. This information will be used to prevent possible contamination of our drinking water system. If a cross-connection is found to exist, appropriate corrective action will need to be taken.

Please return this survey to the address below within ten (10) days of receipt:

**Town & Country Service Co., Inc.
4315 Sterlington Road
Monroe, LA 71203**

If you have questions or would like assistance in completing this survey, please contact our office at 318-323-3183.

Thank you in advance for your cooperation.

Please put an X by the best answer.
